

DEYAAR

A Real Estate Pillar

Established in 2002 with a paid up capital of AED 18.38 million, Deyaar has grown exponentially over the past decade to become one of the leading real estate development companies in the region, with a share capital of AED 5.78 billion following its IPO in May 2007. While Deyaar is one of the largest developers at Dubai's Business Bay, its real estate ventures span major growth corridors and prime locations in Dubai, including Dubai Marina, Al Barsha, DIFC, Jumeirah Lake Towers, IMPZ, Dubai Silicon Oasis and TECOM.

The company's current project portfolio includes iconic residential and commercial tower developments. The firm's international footprint spreads over Lebanon, Turkey, the United States and the United Kingdom, with upcoming expansions into Saudi Arabia, Qatar and India.

Deyaar's operations are divided across four key business units – Property Development, Property Management, Facilities Management and Owners' Association Management. Through these teams, Deyaar aims to maximise investor profits, provide customers with the highest level of service in the industry and deliver real solutions that truly enhance the value of their investments.
